

Any Way The Wind Blows

from Hadestown

Ooooh... Ooooh... Ooooh... Ooooh...

Eurydice was a hungry young girl
A runaway from everywhere she'd ever been
She was no stranger to the world
No stranger to the wind

The weather ain't the way it was before
Ain't no spring or fall at all anymore
It's either blazing hot or freezing cold
Any way the wind blows

And there ain't a thing that you can do
When the weather takes a turn on you
'Cept for hurry up and hit the road
Any way the wind blows

Wind comes up
Oh...
Do you hear that sound?
Wind comes up
(Move) Move to another town

Ain't nobody gonna stick around
When the dark clouds roll
Any way the wind blows

You met The Fates
Remember them?
Anybody got a match?
Always singing in the back of your mind
Gimme that
Wherever it was this young girl went
The Fates were close behind

People turn on you just like the wind
Everybody is a fair weather friend
In the end, you're better off alone
Any way the wind blows
When your body aches to lay it down
When you're hungry and there ain't enough to go round
Ain't no length to which a girl won't go
Any way the wind blows

Wind comes up
Oh...
And sometimes you think
Wind comes up
(You) You would do anything
Just to fill your belly full of food
Find a bed that you could fall into
Where the weather wouldn't follow you
Wherever you go
Any way the wind blows
