

The Heart of Christmas

By Rev Charles Cooper

It's that special time of year again
To be with family, and to be with friends
But the heart of Christmas is being with you.

Children runnin', laughin', playin' with their toys
The whole wide world, singing songs of joy.
But the heart of Christmas is being with you.

I get to you hold within my arms,
Caress you by the fire, keep you safe, keep you warm.
And through the new year, I promise to love more and love you more
You are the present that I adore.

I don't need a whole lot of material things
A fancy car, I don't need a great big ol' diamond ring.
Cuz the heart of Christmas is being with you.

[solo(s)]

I get to you hold within my arms,
Caress you by the fire, keep you safe, keep you warm.
And through the new year, I promise to love more and love you more
You are the present that I adore.

I don't need a whole lot of material things
A fancy car, I don't need a great big ol' diamond ring.
Cuz the heart of Christmas is being with you.
The heart of Christmas is being right here, right now with you.
