www.Unity.org

There are nearly one thousand Unity Centers, churches, study groups and satellites worldwide.

Unity offers spiritual insights and guidance for all people. While having its origins rooted in Christianity, the Unity teachings bring together ancient wisdom from many faith traditions. You will not find dogma in Unity, and we honor all spiritual paths.

The Five Principles

These ancient, universal principles taught by Unity offer foundational guidance for living abundantly and staying in tune with your own divine nature.

- God is everywhere and always present in every circumstance. This divine energy underlies and animates all of existence.
- Human beings are innately good because they are connected to and an expression of Spirit.
- Our thoughts have creative power to influence events and determine our experiences.
- Prayer and meditation connect and align us to our own spiritual nature and to God.
- It is not enough to understand spiritual teachings. We must apply our learning in all areas of life, incorporating them into our thoughts, words, and actions.

*I will be glad and rejoice in you; I will sing the praises of your name, O Most High.
Psalm 9:2*

Unity of Sacramento is much more than a traditional church but sees itself as a positive path for spiritual living. We are a local and global trans-denominational spiritual “center”. This terminology best describes the inclusiveness and diversity for which Unity of Sacramento is known and respected.
